Dura-Fill PF	
Dura-Fill 320	
Dura-Fill 5078	
Dura-Fill Fiber AR	
Dura-Fill PL LP	
Dura-Fill 320 HT	

This chart provides a visual guide for determining which Dura-Fill product will work best in climate zones across the country. Choose the material matching the color of the region, *or one directly above or below that region*, to meet that climate's needs.

Our Research and Development Team works directly with all fifty State DOT Material Labs to develop formulas appropriate for each state's unique climate.

Dura-Fill products are pre-approved by numerous state DOT's and meet or exceed ASTM, AASHTO, Federal and European specifications.

Please call us to discuss your individual state, county or local specifications.
